P R E F A C E

This Directory is intended to offer a wide range of choices to enable each potential camper to select a high quality organized camping experience. Also, this booklet will aid those adults seeking employment in camps.

Hopefully, this Directory will serve as a milestone in increasing camping and other outdoor opportunities for all citizens interested in learning and enjoying the wonders of nature.

All camps listed are classified as residential which is defined by American Camping Association as:

> "A sustained experience which provides a creative, recreational and educational opportunity in group living in the out-of-doors in which campers live at one site two or more consecutive nights. It utilizes trained leadership and the resources of natural surroundings to contribute to each camper's mental, physical, social and spiritual growth."

This Directory includes 109 residential camps listed alphabetically by counties--see Index. Seventy-three (73) indicated a willingness to serve handicapped campers. Forty-three (43) listed acceptance on an individual basis. Fifteen (15) camps were specifically designed for handicapped and persons with special needs. An additional fifteen (15) indicated services through special sessions--see Appendix.

Note: (1) The fees listed are subject to change.

(2) Individuals interested in DAY CAMP PROGRAMS are encouraged to contact the local Parks and Recreation Department.
